Achievements

One of the highlights of my tenure at Salesflo was receiving the Innovative Idea Award in 2023 for my work on an AI-based Geographic Information System (GIS) with an automated routing algorithm. I played a pivotal role in conceptualizing and developing this system, leveraging artificial intelligence techniques to enhance data analysis and optimize decision-making processes. This project demonstrated my ability to think creatively and apply advanced technologies to solve real-world challenges. In April 2024, I was also honored with the Agile Award for consistently meeting customer needs and delivering projects on time, further showcasing my commitment to excellence and adaptability. I think creatively and apply advanced technologies to real-world problems.

Courses

Leadership Workshops

Mar 2023

I have had the enriching opportunity to participate in Leadership and Communication workshops that have significantly contributed to my personal and professional growth. Through these workshops, I honed essential leadership skills and cultivated effective communication strategies.

Web Development & Designing

Mar 2018

In the front-end realm, I gained proficiency in HTML, CSS, and JavaScript, learning how to create responsive and visually appealing user interfaces. This knowledge allowed me to craft seamless and user-friendly web experiences.
